HEALTH AND HEALTHCARE 2026

UDC 61:050.8

«Health and Health Care» Yearbook, Republic of Armenia 2026 /
D. Andreasyan, G. Muradyan, S. Simonyan, L. Mirzoyan, A. Simonyan,
A. Arzumanyan, I. Gpoyan, I. Torgomyan, H. Davtyan, S. Pahlevanyan.–
Yerevan: National Institute of Health Named after Academician S. Avdalbekyan,
2026.– 260 pages.

Health and Health Care Yearbook presents the key indicators of the activities of Armenia's population's health and health care system.

The Yearbook represents data on the performance of health care facilities of the Republic of Armenia collected by the National Center of Health Statistics and Research of the National Institute of Health named after academician S. Avdalbekyan based on the annual administrative reports of the Ministry of Health.

The Yearbook is designed for health system organizers, experts, physicians, and other health care professionals.

ISBN 978-9939-492-00-1

* Live birth is the complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of the pregnancy, which, after such separation, breathes or shows any other evidence of life, such as the beating of the heart, , pulsation of the umbilical cord, or definite movement of voluntary muscles, whether or not the umbilical cord has been cut or the placenta is attached. Each product of such a birth is considered live-born.

Pneumococcal Conjugate Vaccine (PCV)-3	-	-	-	-	-	91.96	92.9	94.29	96.44

HBV–Included since November 1999

Rota-Included since November 2012

DTP/HBV/ HIB–Included since September 2009. Before that, the vaccination of children (under 1 year of age) against pertussis, diphtheria, and tetanus was done by **DTP**, and since April 2020, it's included DTP/HBV/HIB/IPV; however, the vaccination against poliomyelitis has been done with OPV.

MMR–Included since July 2002; Before that, the vaccination against measles and mumps was done by monovalent vaccines of measles and mumps.

Pneumococcus–Included since September 2015

Annotation

Until 1-year-old children-HBV, BCG, DTP/HBV/HIB/IPV-3, PCV-3, Rota-2

Until 2-year-old children-MMR-1, DTP/IPV

Until 7-year-old children-MMR-2, DTP/IPV

Average per capita PHC and narrow professional visits "	7.6	4.7	2.0	2.3	3.4	3.8	3.2	3.8	3.8
Including only PHC (ambulatories and polyclinics)								3.1	3.15

Notes

' The Total number of encounters includes visits to doctors, home visits, and emergency calls involving all PHC specialties.

"The number of visits to PHC includes visits to all PHC specialties and home visits.

*Since 2004, the total number of visits also includes the activity of private dental surgeries (2004 data were recalculated). Since 2006 the total number of visits also includes private medical cabinets.

OUTPATIENT AND NARROW PROFESSIONAL VISITS (excluding health posts and private dental cabinets), 2025

¹ Therapeutic, cardiological, gastroenterological, allergological, rehabilitation treatment, physiotherapeutic, endocrinologic, hematological, nephrological, rheumatological, and pulmonological beds are included in the number of beds for therapeutic patients.

² For surgical patients-surgical, neurosurgical, thoracal surgery, cardiological, vascular surgery, traumatological, burn, orthopedical, urological, stomatological, proctological, endocrine surgery

³ For oncological patients-oncological, radiological, chemotherapy;

⁴ Pediatric beds include all pediatric beds excluding infectious, tuberculosis, dermatovenerological and psychiatric beds

The indicator is calculated from the total number of children

⁵ For pregnant and woman in childbirth-pregnant and woman in childbirth, pathology of pregnancy

The indicator is calculated from the total number of fertile-age females

⁶ Gynaecological- The indicator is calculated from the total number of female population

DISTRIBUTION OF PATIENTS DISCHARGED FROM HOSPITAL AND HOSPITAL DEATHS BY DISEASES, 2025
